

## Editor

**Professor Mark Cross**  
Centre of Numerical Modelling  
and Process Analysis,  
University of Greenwich, London, UK

## Associate Editors

### *Decision Sciences*

**Professor C.J. Malmborg**  
Department of Decision Sciences  
and Engineering Systems,  
Rensselaer Polytechnic Institute,  
Troy, New York, USA

### *Computational Fluid Dynamics*

**Professor N.C. Markatos**  
Department of Chemical Engineering,  
Technical University of Athens,  
Athens, Greece

### *Computational Modelling*

**Professor J.I. Ramos**  
Departamento de Lenguajes  
y Ciencias de la Computación,  
Universidad de Málaga,  
Málaga, Spain

## International Editorial Board

**Professor M.B. Abbott**  
International Institute for Hydraulic  
and Environmental Engineering,  
Oude Delft, Delft, The Netherlands

**Dr. R.J. Batterham**  
Research & Technology Development  
Rio Tinto Limited,  
Melbourne, Victoria, Australia

**Professor P. Bettess**  
School of Engineering,  
University of Durham,  
Science Laboratories,  
South Road, Durham, UK

**Professor J.L. Chenot**  
CEMEF, Ecole des Mines de Paris,  
Sofia Antipolis, France

**Professor J.A. Dantzig**  
Department of Mechanical and  
Industrial Engineering,  
University of Illinois at Urbana-Champaign,  
Urbana, Illinois, USA

**Professor R.P. Davis**  
Department of Industrial Engineering,  
Clemson University,  
Clemson, South Carolina, USA

**Professor F. Durst**  
Universität Erlangen-Nürnberg,  
Erlangen, Germany

**Professor R.T. Fenner**  
Department of Mechanical Engineering,  
Imperial College of Science,  
Technology and Medicine,  
London, UK

**Professor C.A.J. Fletcher**  
Centre for Advanced Computation in  
Engineering and Science,  
UNSW, Sydney, Australia

**Professor G. Maier**  
Department of Civil Engineering,  
Milan Polytechnic, Milan, Italy

**Professor G.D. Mallinson**  
Department of Mechanical Engineering,  
University of Auckland,  
Auckland, New Zealand

**Professor S. McKee**  
Department of Mathematics,  
University of Strathclyde,  
Glasgow, UK

**Professor M.D. Mikhailov**  
Applied Mathematics Centre,  
Sofia, Bulgaria

**Professor K. Morgan**  
Department of Civil Engineering,  
University College of Swansea,  
Swansea, UK

**Professor A.O. Moscardini**  
School of Mathematics and  
Computer Studies,  
University of Sunderland,  
Sunderland, UK

**Professor J.C.J. Nihoul**  
Environmental Programme,  
University of Liège, Liège, Belgium

**Professor S.V. Patankar**  
Department of Mechanical Engineering,  
University of Minnesota,  
Minneapolis, Minnesota, USA

**Professor K.A. Pericleous**  
Centre for Numerical Modelling  
and Process Analysis,  
University of Greenwich,  
London, UK

**Professor H. Pina**  
Department of Mechanical  
Engineering,  
Escola Superior Tecnica,  
Lisbon, Portugal

**Dr. P. Schwarz**  
Division of Mineral Engineering,  
Process Modelling and Developments,  
CSIRO, Clayton South,  
Victoria, Australia

**Professor D.B. Spalding FRS**  
CHAM LTD,  
Wimbledon, London, UK

**Dr. G. Symm**  
National Physical Laboratory,  
Teddington, Middlesex, UK

**Professor J.M.T. Thompson FRS**  
Department of Civil and Municipal  
Engineering, University College,  
London, UK

**Professor M. Tanaka**  
Department of Mechanical  
Engineering, Shinshu University,  
Nagano, Japan

**Professor V.R. Voller**  
Department of Civil Engineering,  
University of Minnesota,  
500 Pillsbury Drive SE,  
Minneapolis, Minnesota, USA

**Aims and Scope:** *Applied Mathematical Modelling* is a monthly publication focusing on research related to the mathematical modelling of engineering and environmental processes, manufacturing, and industrial systems. A significant emerging area of research activity involves multiphysics processes, and contributions in this area are particularly encouraged. *Applied Mathematical Modelling* covers a wide spectrum of subjects including heat transfer, fluid mechanics, CFD, and transport phenomena; solid mechanics and mechanics of metals; electromagnets and MHD; reliability modelling and system optimization; finite volume, finite element, and boundary element procedures; decision sciences in an industrial and manufacturing context; civil engineering systems and structures; mineral and energy resources; relevant software engineering issues associated with CAD and CAE; and materials and metallurgical engineering.

**Publication Information:** *Applied Mathematical Modelling* (ISSN 0307-904X) is published *monthly* for \$1304 by Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710. Further information on this journal is available from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/locate/apm>). Information on other Elsevier products is available through Elsevier's website (<http://www.elsevier.com>). Periodicals Postage Paid at New York NY and at additional mailing offices. POSTMASTER: Send address changes to *Applied Mathematical Modelling*, Elsevier Inc., 360 Park Avenue South, New York, NY 10010-1710, USA.
